

Randy Olinger

Randy serves as the Director of the BioVenture Accelerator for Lakeshore Advantage. Housed at the Michigan State University Bioeconomy Institute, Randy's responsibilities include management of the BioVenture incubation program, and facilitation of flexible leases of laboratory and office space within the Institute.

Randy has more than 30 years of experience with technology-based start-ups working in product development and marketing roles at Meridian Instruments, Neogen Corporation, Michigan Instruments and SAKOR Technologies. He continues to pursue entrepreneurial interests with successful high-tech start-ups in his role.

Randy has received a Bachelor degree in Chemistry from Manchester College in Indiana, and a Master degree in Biochemistry from Michigan State University. He and his wife, Kathy, enjoy sailing, golfing and spending time with their family.
